NORFOLK, NEBRASKA, THURSDAY, NOVEMBER 15, 1900

SPEECH FROM THE THRONE

Emperor William's Address In Opening the Reichstag.

CHRISTIAN WORLD UNITED.

Raiser Says Sole Aim is to Restore Order in the Orient—Germany's Relations With Countries Other Than China Most Satisfactory.

Berlin, Nov. 15.—The reichstag reassembled yesterday. The speech from the throne dwelt at considerable length on the events in China, which have excited such deep emotion among civilized people, saying:

"Fanatical hate and dark superstition, incited by unscrupulous advisers of the court, have driven misguided masses of Chinese to acts of atrocity against the outposts of western civilization and Christian worship dwelling peacefully in their midst."

"My minister died at the hand of an assassin, in a courageous attempt to overcome the rising peril. The foreigners at the capital saw themselves threatened, life and limb. These things of horror united the civilized community, where otherwise there was a divergence. All nations against which the unparalleled onslaught was directed drew closer. Their sons fought with one mind, shoulder to shoulder, even as younger standards float side by side. So the governments show themselves in council, united with the sole wish to restore an orderly state of things as speedily as possible, and, after the banishment of the chief culprits, avert a recurrence in the future of such a disturbance of the peace of the world."

In announcing that the relations of Germany with all the powers are good, the speech recalls his majesty's sorrow at the assassination of King Humbert of Italy, saying he was "my ally and dear friend who fell a victim to a damnable outrage."

Berlin, Nov. 15.—The war office has received this dispatch from Count von Waldersee, dated Peking, Nov. 11: "The former Chinese garrison of Peking is now between Hual Lai and Kauen Hui, 52 and 89 miles respectively northwest of Peking. On this account and also because of a request from Bishop Favier for protection for Catholics threatened in that district, an expedition has been sent under Count von Waterberg."

Emperor Will Return to Peking.

Tien Tsin, Nov. 13.—It is reported that an imperial edict has been issued announcing that Emperor Kwang Su and the empress dowager will return to Peking.

A Russian column of 330 men, with four guns, which left here Nov. 4, returned Nov. 9, having engaged the Chinese. At Hsia Tsang the Russians fought 2,000 Chinese troops, dispersing them and killing 200. The Russians had no casualties.

The population of the city of Tien Tsin now reports 600,000 Chinese and the allies are strengthening the garrison as against a possible surprise. It is supposed that one-third of the inhabitants are Boxers.

Ministers About Agreed.

Peking, Nov. 12.—A protracted conference of the foreign ministers was held today, at the conclusion of which there was a general expression of gratification at the progress made toward reaching a settlement. It was stated that most of the points had been disposed of and that an agreement had been reached upon several essential questions. The meeting disclosed fewer differences over important points than was expected, which is largely due to the fact that the ministers have received definite instructions from their home governments.

Looting of Ming Tombs.

London, Nov. 15.—Dr. Morrison, writing to the Times from Peking Monday and referring to the German expedition to the tombs of the Ming dynasty and Kalgau, says: "Opinion here condemns the looting of tombs, although no punishment could be excessive for the cruelties recently revealed. One English missionary had his eyes burned in the sockets with incense sticks. He survived his agonies for 80 hours."

Says Princes Will Never Be Executed.

Paris, Nov. 15.—The Matin publishes an interview with Yu Keng, the Chinese minister, in the course of which he said: "The princes will never be executed. The representatives of the powers are wasting time and strength. They ought to bring back the emperor to Peking, and, if necessary, to use force to deliver him forever from the influence of the empress."

Dies at His Desk.

Boone, Ia., Nov. 15.—J. O. Barnes, a glove manufacturer, who controlled the Boone Tent company and who had long been prominently identified with the growth of this city, dropped dead beside his office desk yesterday from heart failure.

Czar's Illness Not Serious.

London, Nov. 15.—The dowager zarina, according to a dispatch to the Daily News from Copenhagen, has received a telegram saying that the czar's illness is "not particularly serious."

SAYS ELECTION WILL STAND

Senator Titus Declares Error in Amendment Not Sufficient to Invalidate.

Muscatine, Ia., Nov. 15.—Concerning the technical error said to have been made in the biennial election amendment to the constitution of Iowa, carried in the recent election, Senator Titus, author of the bill, said: "It is impossible, in my opinion, to invalidate the election just held by an amendment adopted at the same time the various officers were chosen. The officers just elected can prevent themselves for qualification and demand the officers. It would then be incumbent upon the present occupants to prove that their terms had been extended before the successors were chosen. I have just received a dispatch from Attorney General Rensley, who says his opinion, filed yesterday, holds that the plain intent of the legislature must govern in constraining the amendment. The technical error therefore cannot affect."

TO FACE CHARGES.

Mine Owner Samuel Strong, Suspected of Blowing Up Victor Shaft, Arrives in Cripple Creek.

Colorado Springs, Colo., Nov. 15.—Samuel Strong, a prominent Cripple Creek mining man, has arrived home from his European tour and announces his readiness to face the charges recently brought against him in connection with the destructive explosion which occurred at the Strong mine in Victor six years ago.

The Strong shaft house, ore house and machinery were blown up May 25, 1894. The explosion was one of the sensational incidents of the "Bull Hill" war, when the miners of the Cripple Creek district were on strike and hundreds of deputy sheriffs were enlisted and armed in Denver to oppose the strikers.

Robert J. Lyons, Nicholas Kelly and several other miners were tried, convicted and sentenced to long terms in the penitentiary for the Strong mine affair. Their innocence has since been shown and they were pardoned. They have brought suit for \$150,000 damages each against Mr. Strong. It is alleged in the complaints that Mr. Strong himself caused the explosion. It is charged that he had agreed to sell the property to E. W. Giddings and William Lennox, and that at the time of the explosion he had already received \$20,000 as part payment for the property and a balance of \$40,000 was due him in a few days. It is claimed that he discovered the value of the property after he had sold it and expected that after the workings were destroyed by the explosion they would fall to pay the balance due and the property would revert to him.

PLAGUE IN SAN FRANCISCO

Doctors and Newspapers Disagree as to Dread Disease.

SCORE OF CASES REPORTED.

Total of Eighteen Deaths Alleged to Be Due to Eastern Scourge—Local Papers Say Diagnosis is Wrong and Victims Died of Common Affliction.

San Francisco, Nov. 15.—The Bulletin publishes the report of Federal Quarantine Officer Kluyoum, in which he states that from March 7 to Oct. 14 there have been 18 deaths in San Francisco from plague. The Bulletin says that it is well known that there has not been a single authenticated case of plague in San Francisco. Dr. J. M. Williamson of the San Francisco board of health says there have been 21 or 22 cases of bubonic plague in this city since the first case was discovered last May. The last case was reported Nov. 3. The disease has been confined almost entirely to the Chinese quarter and all but two or three of those afflicted were dead when they were reported to the health department. Local quarantine was at once established over the places where the deaths occurred and every precaution taken to prevent the spread of the disease.

Since the first discovery by the local board of health last March of what they called the plague the San Francisco newspapers have insisted that the health officers were mistaken. Statements were obtained from physicians in which they said that the Chinese alleged to have died of plague suffered from syphilitic diseases, the symptoms of which had been mistaken by the health board as those of the plague.

May Use \$3,000,000 to Found and Endow Polytechnic Institution in Pittsburg.

Pittsburg, Nov. 15.—Andrew Carnegie, it is stated on unquestionable authority, has another surprise for Pittsburg, involving the expenditure of several millions of dollars. His purpose is said to be the establishment of a polytechnic school for the instruction of practical mechanics and the industrial sciences. The amount of money which it is said will be spent by Mr. Carnegie in founding and endowing the school is \$3,000,000. Details of the proposition are expected to be made public today.

Throws Open Reservations to Sheepmen.

Fresno, Cal., Nov. 15.—According to a decision by United States District Judge Wellborn, in the case of L. E. "Blasingame," it is held that the act of June 30, 1898, authorizing the secretary of the interior to make regulations for the protection of forest reserves is unconstitutional, because in effect it delegates by congress legislative power to an administrative officer. The decision, it is claimed, practically throws open to the sheepmen all the reservations, though they are still liable in civil suits for damage for trespassing.

Louisville, Nov. 15.—The western section of the executive commission of the "Alliance of the Reformed Churches holding the Presbyterian system" began its annual meeting at the Warren Memorial church. ROW AT ACADEMY.

Cadets and Teachers March Away From Kearney School Because of Dr. Chittenden, Who Hands in Resignation.

Kearney, Neb., Nov. 15.—Temporarily at least, the trouble at the Kearney military academy, an Episcopal school, has been patched up. Colonel Chittenden, who has been at the head of the school, turned the management of the place over to Professor H. N. Russell, the head master, and he will resume the normal routine at the academy.

There has been much dissatisfaction at the school for some time owing to the actions of Colonel Chittenden, the whole situation coming to a head on Saturday, when the entire teaching corps resigned and came to Kearney, taking quarters at the Midway hotel. All the boys but five came with them. One story is to the effect that the boys did much damage to the building before leaving, breaking windows, destroying furniture, defacing walls and the like.

The storm is severest in the mountains west of this city, where the snow is already two feet deep. All street traffic in Lead and Deadwood is suspended.

This Kind of a Man

Doesn't know the difference between good lumber and poor lumber. Any old stuff would suit him. But our stock wasn't bought for such fellows as him. It was bought for the most particular men in the community. If you happen to be one of those particular chaps, and want some extra nice lumber, here's the place to get it. Please! Low as you get anywhere.
